

I am absolutely opposed to relaxing any aspect of NJ's do not call law! Pre-law I was inundated with solicitations over the phone. They flooded my voice mailbox, forced me to interrupt important business calls through call waiting, disrupted our leisure time, etc. Post-law I'm mercifully free of their unwanted calls. Telemarketing via. phone is an intrusion into my home, an invasion of my privacy. A privacy I consider a fundamental aspect of American democracy.
